I have experience as a leader in physical therapy through my specific jobs, advisory groups within physical medicine departments and while interacting with other professionals in outpatient, hospital and pre-hospital settings. I truly believe in the positive impact we, as physical therapists, can make in health care, our communities, and public health as a whole.

- 1. What talents/attributes do you possess that will contribute to your service on the Chapter Board or Directors? I am quite task-oriented and work to find ways to make work or tasks more efficient and effective. I can create and manipulate spreadsheets and format documents to be easy to read and follow.
- 2. As a member of the Chapter Board of Directors, you will collaborate with other Board Members. What talents and experiences will you draw upon to enable you to be a successful team member? Having been part of committees during my time at Mayo Clinic Health System and during my leadership roles in Alaska physical therapy clinics, I have worked with small and medium-sized groups of people to problem solve, plan, and collaborate on tasks and events for the benefit of the practice and community.
- 3. Please share one fact that most members may not know about you. Despite having grown up in the U.S., having an American high school diploma, two American college degrees, and a physical therapy degree from an English-speaking country, I had to take the Test of English as a Foreign Language to get my Alaska PT license.
